

POLITICAL RESOLUTION

No. 14(1) V 2024

The Secretariat of the Central Revolutionary Committee
of Internationalist Revolutionary Communist Party
issued a 'Political Resolution'
in occasion of International Workers' Day
on May 1st 2024

Comrades! Working people!

Today is a special day that, for over one hundred and thirty years, has become a symbol of the most beautiful and lofty dreams and aspirations, the most heroic struggles of working people of all nations and countries.

May 1st, the day of celebration of the international working class, all revolutionaries and communist activists and all working people. It is a solemn day that pays respect and tributes to all those who are on the side of peace and international solidarity of working people.

It is a day, a symbol of aspirations and struggle, a symbol of true solidarity of working people. The one that combines the forces of liberation, progress and socialism.

We remember with reverence the pioneers of the international workers' movement. We pay respect to veterans of revolutionary and liberation struggles.

We remember with affection the millions murdered by imperialist forces, the thousands who died in defense of the people's power in many countries of the world.

The May 1st is an integral part of the history of the modern world. The ideas of internationalism and brotherhood of working people are immortal and invincible.

Today, in troubled times when imperialist wars show decline and degeneration in the progressive trend of history, we are even tightening ranks and unity in the revolutionary struggle.

Our banner, the banner of the truly revolutionary IRCP party, faithful to communist ideals, which will never be stained by betrayal or cowardice, will never be disgraced by cooperation with the bourgeoisie, and will always proudly bear loyalty to ideals and militant spirit. There will be no trace of resignation or doubt in our fight, in the fight for liberation from the shackles of capitalist oppression and exploitation. On the day of May 1st, the holiday of working people – we will strengthen ourselves with the revolutionary spirit and memory of the fighters for freedom and communism, strengthened by this fighting spirit, we will continue to fight against the criminal system of capitalist exploitation, fight for a new, better tomorrow for us and our future generations.

May 1st is the day of solidarity of the international proletariat with them internationalist values. Our IRCP party will always be faithful to it, faithful but not at the price of selling the ideas and values of revolutionary Marxism – Leninism – Maoism, under the banner of modern revisionism – that prevails in the international workers' movement today and characterizes by modern leftism. The banner of proletarian internationalism cannot be stained either by revisionism or by any collaboration with the bourgeois of the parliamentary traitors of the ruling class elites, who are trying to bribe and lull the real class struggle and destroy the revolutionary movement.

In these difficult conditions, the IRCP Party, proving faithfulness to the universal principles of Marxism – Leninism – Maoism, at

the same time enriches them with new forms of strategy and tactics of revolutionary struggle, resulting from historical and contemporary conditions with synthesized it, to a new higher stage of development of the Marxism – Leninism – Maoism as the Internationalist Universalism is.

In the current conditions of capitalism, which is reaching a new, previously unknown stage, the stage of global neo – liberalism, the class solidarity of the international proletariat cannot be fully manifested. But even then – as the history of the October Revolution in Russia proved – it guarantees that the weakest link of capitalism will be broken by the working class. There would be no victorious Socialist Revolution in the Soviet Union without its support by the world proletariat.

For we believe steadfastly that:

THE STRUGGLE FOR FREEDOM IS IMMORTAL

Not only workers and all working people, but also revolutionaries, will celebrate their holiday under this sign. All those who, in the underground of the revolutionary conspiracy, fight for a just world free from the exploitation of man by man, fearless fighters of the revolutionary struggle, all who remain at their posts of the fight against fascism, the fight against slavery, the fight against imperialist barbarism.

May 1st is an expression and symbol of the unity of the working class of all countries of the world and the unity of the interests of all working people, their aspirations and goals.

Despite all state, national, religious and racial divisions, workers from all over the world are united by belonging to one social class – the working class. In this class unity lies the content and invincible power of the socialist idea.

The international solidarity of the working class finds the conditions for full manifestation, for demonstrating its enormous importance for the fate of all nations, only when some state link of capitalism is broken and the working class starts building socialism there. How much easier could imperialism now push humanity into the abyss of nuclear war if it were not afraid of the solidarity of the working class of all countries.

The class solidarity of workers is fully manifested in countries building socialism. It is the main condition for conducting this construction. There is no doubt that neither the DPRK, nor Cuba, nor Belarus, nor any other country of people's democracy could take the path of socialism without mutually strengthening the bonds of solidarity connecting the workers of all countries. Without the unity of socialist countries, socialism cannot be built. It is no wonder that the attacks of the capitalist world primarily target the unity and cooperation of socialist countries.

Let today become a clear expression of the national will to build a better tomorrow for the world. The will to steadfastly fight against the world system of capitalist exploitation until its overthrow, until full socialism and social justice, the liberation of working people and every human being!

GLORY TO MAY 1st !

**LONG LIVE INTERNATIONAL SOLIDARITY
OF THE WORKING CLASS !**

REVOLUTIONISTS OF ALL COUNTRIES UNITE !
